

Pre Requirements:

Go to www.humanity.com and create new business owner account (your own test account that

you'll use for automation).

Tasks: Write down all test cases (log cases in doc or excel) for:

I Login page

1. Go to <https://www.humanity.com> and click on "Log in" tab
Expected Result: "Log in" page is displayed, with option to enter username/ password, "Log in " , "log in with single sign on" button and option of forgot password
 2. Insert valid username and password and click "Log in " button
Expected Result: Humanity dashboard is displayed
 3. Insert invalid username and password and click "Log in " button
Expected Result: User is not able to login -validation message is displayed: " **Your username/email or password is incorrect. Please try again or click**"
 4. Leaves username or password field as blank and click "Log in " button
Expected Result: Validation message is displayed: " **Your username/email or password is incorrect. Please try again or click**"
 5. Insert again valid username and password
Expected Result: Validation message SHOULD DISAPPEARED
*This should be IMPROVEMENT
 6. Exceeds the character limit of the user name and password fields
Expected Result: Validation message is displayed
 7. Leaves username or password field as blank and click "Log in with single sign on"
Expected Result: "Log in with single sign on" page is displayed, with "Enter company domain" filed, : "Log in with single sign on" button, Return to Log In page, and option of forgot password
 8. Leaves username or password field as blank or insert invalid data and click more than 3 times on "log in " button
Expected Result: There is limit on the total number of unsuccessful attempts, so CAPTCHA is appeared
 9. After CAPTCHA is displayed, insert valid credentials, check "Nisam robot" filed and click "Log in" button
Expected Result: Humanity dashboard is displayed
- Etc.....

II Add new employee feature (there are different possibilities how to add a new employee, but you can navigate to Staff module and add new employee clicking on Add Employees button)

1. Go to <https://www.humanity.com> and proceed to “Humanity” dashboard
Expected Result: “Humanity” Dashboard is displayed
2. Click on „Staff“ tab and click „Add Employees button
Expected Result: “Add Employees” page is displayed
3. Insert valid data in First/ last name and email fields, click on „Save employees“ button
Expected Result: New entered employee page is displayed
4. Click on “ShiftPlanning” tab and click “Add Employeesa” button
Expected Result: “Add Employees” modal window is displayed
5. Insert valid data in “First/ last name and position filed, click on “continue” button
Expected Result: “ShiftPlanning” page is opened with new entered employee.
 - BUG – When you hover over the “Continue” button, cursor arrows is not displayed
6. On “Staff” page, choose and click on one of new entered employee (left, column Name)
Expected Result: New employee details page is displayed
7. On Employees files section, upload File (down -right)
Expected Result: File is successfully uploaded.

IMPROVEMENT – Pop up message “FILE UPLOADED” is appeared on the top of the page. It’s should be better positioned, close to “Employee Files” section and be clearly visible.

8. After you uploaded file, on Employee Files section, delete the same file, by clicking on “x” button
Expected Result: Pop-up delete message is appeared, with options “Potvrdi/ Otkazi”
 - BUG - Pop-up message contains question on English but options on Serbian language. Messages contain should be harmonized, on one language
